EGYPTIAN NIGHTS: SECRETS OF THE SKY GODS

What happens to a Pharaoh's soul when he dies? Can the Sun God Re survive a battle with a giant serpent? How can the dead enter the Underworld? The answers can only be found in ***Egyptian Nights: Secrets of the Sky Gods*** now playing in the Sky Theater. For the full **Egyptian Universe** experience, don't miss ***Stars of the Pharaohs*** now playing in the StarRider

Theater.

CELEBRATE NASA'S RETURN TO FLIGHT THIS JULY

Five, four, three, two, one...LIFT OFF!
The Adler is the place to be when NASA's next space shuttle Return to Flight mission gets the thumbs up. During the launch window for Discovery's next flight — July 1-19 — visitors can enjoy spaceflight activities. If all is a "go" for the launch during museum hours, visitors can watch the launch live. Adler staff will be on hand to explain everything from how to train for a launch to the tasks astronauts run through during a countdown. Stay tuned to the Adler's website for specific launch date information, as it becomes available from NASA.

**SUMMER FUN AT THE
ADLER**

Cool winds off the lake, longer hours and the best view of Chicago's celebrated skyline are just a few reasons why the Adler is a great place to visit during the summer. While you're here, don't miss [Galileo's Cafe](#). Located in an all-glass pavilion, both the food and the view are out of this world.

FUN FACT: EVIL ECLIPSES

Today, a total solar eclipse is an awesome astronomical occurrence that people will travel across the world to see. But ancient Egyptians believed total solar eclipses were evil omens signaling oncoming war or worse. Last time a total solar eclipse was visible over Egypt's pyramids: March 29, 2006. Next time Chicagoans can see a total solar eclipse: August 21, 2017!
