

MEDIA ADVISORY

Early Childhood Week Brings Young Visitors to the Adler

Adler activities are part of nationwide celebration of early childhood April 23-27

The Adler invites families with young children to participate in **Early Childhood Week at the Adler, April 23–27**. The weeklong celebration of early childhood includes FREE daily activities for the next generation of explorers. Listen to a space story and act it out using puppets, play Zula Bingo for a chance to win a prize and learn what plants have successfully grown in space — and then plant one to take home!

Early Childhood Week at the Adler is part of the national Week of the Young Child. Week of the Young Child focuses public attention on the needs of young children and their families and recognizes early childhood programs and services that meet those needs. All Early Childhood Week activities at the Adler are free with paid museum admission. Visit www.adlerplanetarium.org for a complete list of activities and times.

EVENT: Early Childhood Week

DATE: Monday, April 23 – Friday, April 27

TIME: 10 a.m. – 1 p.m.; Daily activities vary

**LOCATION: Adler Planetarium
1300 South Lake Shore Drive, Chicago
312-922-STAR**

About the Adler Planetarium

The Adler Planetarium — America’s First Planetarium — was founded in 1930 by Chicago business leader Max Adler. The museum has announced a new vision to be the world’s leading space science center. The museum will inspire the next generation of explorers by sharing the stories of human space exploration and America’s space heroes. The Adler is a recognized leader in science education, with a focus on inspiring young people, particularly women and minorities, to pursue careers in science. For photos and additional information, please visit www.adlerplanetarium.org.
